EXPERIENCE

FDM Group / Morgan Stanley — New York, New York
Digital Investment Proposals - Frontend Software Developer — 05/2022 - 03/2024

- Developed and maintained various components, services, and features for the Morgan Stanley Online client platform in the digital planning space.
- Assisted in migrating the application incrementally from Angular 2+ to React after the firm's acquisition of E*TRADE.
- Helped develop a more responsive web application, ensuring seamless user experience across various devices and screen sizes through effective design and implementation of adaptive layouts and fluid UI elements.
- Facilitated integration of the project into Microsoft Azure, enhancing its versatility and usability for diverse user needs.

CSULA Athletics Finance Division — Los Angeles,California
Student Assistant — 11/2019 -12/2020

- Assisted the CSULA Athletics Finance Division in organizing and maintaining financial records, ensuring accuracy and compliance within university guidelines.
- Provided administrative support, including filing documents, scheduling meetings, and responding to inquiries, fostering smooth operations within the Finance Division.
- Supported financial analysis by gathering and summarizing data, and generating reports on financial activity for various athletic department logistics contributing to informed decision-making processes within the Athletics department.
